

Applied Behavioral Concepts, Inc.

An affiliate of New Horizons in Autism

Home-Based Services

Applied Behavioral Concepts offers home-based services to families of individuals with autism spectrum disorders. Families should be committed to adhering to the principles of Applied Behavior Analysis in the home and within the individual's educational program. The following services are offered:

- ◆ Coordination of home therapy services
- ◆ 1:1 ABA therapy utilizing teaching methodologies such as Discrete Trial Instruction, Verbal Behavior, Fluency-based Instruction, and Incidental Teaching
- ◆ In-home consultations to assess behavior management, structure, communication and more
- ◆ Parent, sibling, family member training
- ◆ Assessment and analysis of IEP and educational and vocational goals
- ◆ Other home services available upon request
